Profile

UK Qualified Architect and Design Lead with 8+ years of experience delivering mixed-use, masterplanning, luxury residential, commercial, and lifestyle projects across EMEA, AMER, and the GCC. Highly creative with a strong eye for design, passionate about crafting exceptional spaces that blend functionality, aesthetics, and client vision. Skilled in end-to-end project delivery, guiding complex projects from concept through construction while ensuring design excellence, regulatory compliance, and seamless interdisciplinary collaboration. Proven track record working with globally recognized clients, including JPMorgan Chase & Co., Apple Inc., The Crown Estate, Dubai Holding, and directly on the client side with Peabody Group and London Square, gaining insight into client requirements, strategic objectives, and design governance. Recent highlights include Spine Cove Residences, Palm Jebel Ali, and a master-planned residential development in Abu Dhabi. Experienced in technical design development, preparing construction documentation, and coordinating multidisciplinary teams to deliver high-quality outcomes on schedule and within budget. Passionate about mentoring emerging designers and promoting sustainable design, contributing to pro-bono initiatives such as the RIBA International Award-winning Collège Hampaté Bâ, while consistently demonstrating attention to detail in environmentally responsible design solutions.

Professional Experience

Freelancing - Dubai & London, UAE — 12/2024 - present
Design & Project Management

Projects: Residential Fit-Out, Private Client

- Delivered design concepts and detailed drawings for residential and commercial projects, bringing residential visions to life with functional and elegant spaces.
- Collaborated closely with clients and consultants to ensure proposals met project goals and exceeded expectations.

White Space Architects - Dubai, UAE — 07/2024 - 12/2024
Senior Architect - RIBA | ARB

Projects: Yas Canal Community, Abu Dhabi, Housing Development, Spine Cove - Jebel Ali
Client: ICT
Project Budget: Confidential

- Developed concept, schematic, and detailed design proposals for residential project, aligning with client requirements and local authority regulations.
- Facilitated client presentations and workshops, translating concept designs into visual proposals and coordinating feedback to refine project outcomes.

H+A Architecture - Dubai, UAE — 11/2023 - 06/2024
Senior Architect - RIBA | ARB

Projects: Spine Cove, Resort Residences, Palm Jebel Ali, Dubai, UAE
Client: Dubai Holding
Project Budget: Confidential

- Led design from concept to detailed stages for residential and hospitality projects, managing BIM workflows, documentation, and multidisciplinary coordination.
- Directed client presentations, incorporated feedback, mentored junior architects, and supported project delivery across the board.

Woods Bagot - London, UK — 04/2023 - 10/2023
Senior Designer - RIBA | ARB

Projects: Synchro Yards, Porto, Montenegro
Client: Porto Montenegro/ Kerzner International
Project Budget: Confidential

- Led design development and technical delivery for large-scale mixed-use projects, producing detailed Revit documentation for tender and construction stages.
- Coordinated multidisciplinary teams and client communications, integrating structural and MEP services while securing design approvals and milestone progress.
- Managed project programmes and resources, supporting business development through bid submissions and design competitions.

Foster + Partners - London, UK — 07/2018 - 04/2023
Architect - RIBA | ARB

Project Regions: EMEA & AMER
Project Values: USD $3Billion (Includes pro-bono and commercial projects)

- JP Morgan Headquarters, (New York, New York, USA) - Client: JPMorgan Chase & Co.
- Private Residency, (Bodrum, Turkey) - Client: Confidential
- Centennial Yards Masterplan, (Georgia, Atlanta, USA) - Client: Centennial Yards Company
- La Fabrica Masterplan, (Santiago, Chile) - Client: Grupo Patio
- Ferry Building Repositioning, (San Francisco, California, USA) - Client: Hudson One Ferry Operating, L.P
- Battersea Power Station, (London, UK) - Client: Battersea Power Station Development Company
- The Edge Residence, (Carrasco, Uruguay) - Client/ Developer: Betalba Capital
- Apple Store, (Gangnam, Seoul, South Korea) - Client: Apple Computer Inc.
- Quadrants Arcade, (London, UK) - Client: The Crown Estate

- Developed design concepts from schematic to detailed design stages for international residential, commercial, and hospitality projects.
- Produced comprehensive BIM models and construction documentation, ensuring coordination accuracy with global teams.
- Managed client presentations and design workshops, effectively communicating design intent and incorporating feedback into deliverables.
- Coordinated consultant inputs and led design integration, facilitating smooth workflows and high-quality outputs.
- Mentored junior team members in design standards, BIM modelling, and documentation practices.

Architect | Design & Project Management

Pamusha - Design & Lifestyle Brand — 2018 - present

Founder & Creative Lead

Location: Harare, Zimbabwe & London, UK
Projects: Design Strategy, Creative Direction, E-commerce & Business Operation, Sustainability & Social Impact

A lifestyle and interiors passion project celebrating African design, weaving together my love for the arts, sculpture, textiles, interior decor, bespoke furniture and immersive spatial experiences. I lead the creative vision, design strategy, and brand development, crafting socially conscious, sustainable, and timelessly elegant spaces that honor heritage, artistry, and the beauty of refined african creativity.

Sheehan Nagle Hartray Associates - London, UK — 02/2018 - 07/2018

Architectural Assistant - RIBA

Project Location: VA, AMER
Project Client & Budget: Confidential

- Richmond Data Centre, VA, USA - Achieved LEED Gold

- Developed detailed technical and construction drawing packages for data centre projects, utilising BIM software to achieve precise documentation.
- Collaborated with international teams to finalise design details and ensure project delivery within strict deadlines.
- Contributed to LEED Gold accredited projects by integrating sustainable design principles into technical detailing.

Article 25 - International NGO - London, UK — 03/2017 - 02/2018

Architectural Assistant, Project Lead - RIBA

Project Regions: EMEA
Project Financials: Probono, Government & NGO Funded

- College Amadou Hampate BA, (Niamey, Niger) - Client: UNESCO & CSP Amadou Hampate BA - RIBA International Award - Winner
- Yangon General Hospital, (Yangon, Myanmar) - Client: Department for International Development (UK)
- Anandaban Hospital, (Anandaban, Nepal): The Leprosy Mission England and Wales

- Led concept design and schematic development for educational and healthcare projects, including the award-winning Collège Hampaté Bâ in Niger.
- Managed project design teams and coordinated with remote consultants and stakeholders to deliver projects within budget and timelines.
- Produced detailed drawing packages across RIBA Stages 2-4, integrating local codes and regulations to ensure compliance.
- Facilitated client presentations and stakeholder meetings, incorporating feedback to enhance project outcomes.
- Monitored project progress, identified risks, and implemented mitigation strategies to ensure successful delivery.

University of Liverpool, School of Architecture - Liverpool, UK — 11/2018 - 12/2021

Design Studio Lecturer & Tutor - Part Time

Part-time lecturer at the University of Liverpool, I led student focus groups, delivered lectures, and facilitated workshops to foster collaboration and critical thinking. I mentored students individually, providing guidance to refine their design and technical skills while ensuring alignment with academic and professional standards.

- Delivered lectures and facilitated interactive workshops, enhancing student understanding of architectural design and technical concepts.
- Mentored students individually, providing targeted feedback to refine their design, technical, and presentation skills.
- Led focus groups to align student projects with academic objectives and industry standards.

London Square, Luxury Real Estate, London, UK — 11/2016 - 04/2017

Design Assistant

Project: Royal Star and Garter, Grade II, London UK
Client: Royal Star and Garter
Project Budget: £50 Million

- Assisted in design coordination and technical detailing for luxury residential projects, ensuring compliance with Grade II heritage standards and design intent.
- Collaborated with contractors, consultants, and multidisciplinary teams to resolve construction challenges while maintaining high-quality design outcomes.
- Conducted site inspections and surveys, preparing design revisions to address on-site issues efficiently and align with project program.
- Supported project documentation and design presentations, ensuring clear communication of design ideas to stakeholders.
- Contributed to quality assurance processes, checking shop drawings and ensuring alignment with approved plans and specifications.
- Assisted in tracking design progress and coordinating deliverables to meet project milestones and contractual obligations.

Catalyst Housing / Peabody , Developer, London, UK — 08/2015 - 07/2016

Design & Quality Assistant

Project Region: London & Oxfordshire, UK
Project Values: Probono - $3Billion

- St Bernards Gate, (Ealing, London) - Client
- Dickens Yard, (Ealing, London) - Client
- Littlemore Park, (Oxford, Oxfordshire) - Client

- Led design development across multiple large-scale residential projects, ensuring alignment with strategic objectives and delivering cost-effective solutions without compromising design quality.
- Coordinated with planning authorities and multidisciplinary consultants, securing timely approvals and compliance with local regulations.
- Implemented sustainable design strategies within masterplans, enhancing environmental performance, community value, and long-term project feasibility.
- Prepared and reviewed masterplan-level design documentation, including concept layouts, site analysis, and feasibility studies, to guide development decisions.
- Supported stakeholder engagement, presenting design proposals and updates to clients and internal teams to ensure clear communication and buy-in.
- Monitored design progress and coordinated deliverables across teams, ensuring timely submission, adherence to design intent, and high-quality outcomes throughout the project lifecycle.
